NEWS RELEASE

June 1st, 2020

RevoluGROUP Canada Inc. RevoluVIP Travel Division Update

Vancouver, BC – RevoluGROUP Canada Inc. (TSX-V: [REVO](#)), (Frankfurt: [IJA2](#)) (the "Company") is pleased to announce an update concerning the [RevoluVIP Travel Division](#).

RevoluVIP

Since travel is gradually recommencing in numerous countries around the world, the Company wishes to revisit the [24th April 2020](#) measures revealed just over one month ago. Thus, the Company would like to update shareholders as to the varied developments within the RevoluVIP Travel Division.

Government Relief Petition

The wholly-owned subsidiary Travelucion S.L. petitioned for a 50,000 euro (approx. 76,000 \$CA) Spanish government-backed travel sector-specific COVID relief program. The Company expects this petition to be granted and will update shareholders accordingly.

Renegotiated Partner Grants and Rebates

The Company solicited a revision of upcoming invoices from technology partners [Constellation Software Inc](#) subsidiary Juniper. Under this revision, the Company obtained approximately 12,000 euro (Approx. 18,000 \$CA) reduction on invoices and nearly 42,000 euro (Approx. 64,000 \$CA) in annual GDS connection concessions covering ten new wholesale suppliers which the Company is now integrating at zero cost. The Company's launch investment in RevoluVIP was entirely satisfied in 2019. The platform, besides some aesthetical homepage changes, requires only minimal monthly expenditures to sustain operationally.

Uninterrupted Operations of RevoluVIP

The Company's travel division is primarily automated in its function, requiring minimal human interaction for outgoing travel sales. The platform has continued to function throughout the COVID pandemic without difficulties, generating reduced but consistent revenue, boasting [120 worldwide country websites](#) and, notable cost-free visibility on organic web searches.

New Suppliers For RevoluVIP

The Company has diligently pushed forward throughout the COVID pandemic, utilizing the lull in travel to negotiate and capture new wholesale suppliers. The following is a list of additional RevoluVIP suppliers accessible in the coming weeks:

[Nexus Tours](#) – The Company welcomes NEXUS Tours as a wholesale supplier to the RevoluVIP Travel Club net rate platform for Hotels, Package Deals, Transfers and Excursions in the Caribbean Basin.

[SeeUSATours](#) - The Company welcomes See USA Tours as a wholesale supplier to the RevoluVIP Travel Club net rate platform for Hotels, Package Deals, Transfers and Excursions in the United States.

[WebBeds](#) - The Company welcomes WebBeds trading as SunHotels as a wholesale supplier to the RevoluVIP Travel Club net rate platform for worldwide hotels.

[HotelDo](#) - The Company welcomes HotelDo to the RevoluVIP Travel Club net rate platform as the LATAM Regional leader in online and XML hotel distribution, supplying accommodation-based travel products under a wholesale agreement.

[Agoda](#) - The Company welcomes Agoda.com to the RevoluVIP Travel Club net rate platform as an online wholesaler and metasearch engine for hotels, vacation rentals, flights, and airport transfers. This latest agreement with Agoda is in addition to the previous VCC processing.

[CarTrawler](#) - The Company welcomes CarTrawler, a world-leading end-to-end travel technology solution for ground-based transport solutions to the RevoluVIP Travel Club net rate platform for worldwide car rentals, shuttle services, transfers, and limousines.

2020 Member Projections For RevoluVIP

The Company recognizes that it did not achieve the RevoluVIP Travel Club member target projected for 2019, due primarily to numerous external technical and supplier issues now resolved out of court and the unlimited payments processing delay associated with the recently granted [PSD2 license](#). The Company's goal is therefore preserved for the year 2020, a year in which management envisages a seismic shift in consumer habits, especially those who seek close to net-price travel services through the [Diamond Membership](#) program. By leveraging RevoluPAY users from all verticals, select white-label initiatives, and partner databases, management predicts a rapid upsurge in members as the year progresses. Furthermore, the Company forecasts a concurrent reduction in rival travel suppliers as several succumb in the aftermath of the COVID pandemic. The unique cost-efficient structure of RevoluVIP is likely to excel in this emerging, drastically changed post-COVID travel market. [RevoluVIP Presentation](#)
